NATURAL GAS (CAPTAIN SATISH SHARMA): (a) Yes, Sir.

(b) As per the present policy of transfer of connections, if a consumer wants to transfer the connection from one
city to another, a termination voucher has to be obtained after surrendering the equipment to the concerned distributor. A connection can be obtained on production of the termination voucher in the city where the connection is desired. Only in cases where the transfer of connection is within the city from one area to another on account of shifting of residence, the customer is permitted to take the equipment' along with him without depositing the same with the concerned distributor. Since the transfers from Delhi to Faridabad, Noida and Ghaziabad are transfers from one city to another, the customers are not permitted to take the cylinders alongwith them at the time of the transfer of residence.

(c) There is no such proposal under consideration at present, for reasons of handling cylinders and equipments and prevention of irregularities in the operation of distributorships.
